# COULD YOU BE LIVING A BETTER LIFE?

**PROGRESS FNQ UNDERSTANDS THAT LIFE CAN BE A CHALLENGE.**

**Which is why our priority is enhancing your life in every way we can with your needs being at the heart of everything we do.**

The care we provide and the directions we take are personalised to meet the needs of our individual participants. We aim to create opportunities, promote independence and progression in a safe and non-discriminative environment. We provide individual support 24 hours a day, 365 days a year, always maintaining excellent care and strictly following professional NDIS standards.

## HOW CAN WE HELP YOU?

### SUPPORTED INDEPENDENT LIVING (SIL)

We have established share households with a qualified teams providing participants with the 24 hour assistance they need to live independently while learning new skills.

### COMMUNITY ACCESS

We have a very experienced team who help participants interact and engage socially in their community. This includes facilitating social outings, attending appointments and day to day tasks.

We work with vulnerable and disadvantaged groups, including children in out-of-home care, Aboriginal and Torres Strait Islander and people from culturally diverse backgrounds.

### IN-HOME SUPPORT

We provide outstanding, practical support that enables our participants to continue to live independent, fulfilling lives in their own home environment.

### THERAPEUTIC SUPPORT

Our qualified staff have experience in child and youth mental health as well as adult mental health. We provide the support participants with complex psychosocial and mental health need to live a full, independent life in their community.

With the assistance of our experienced, professional clinicians, participants are able to improve their functional skills, gain independence, and help manage conditions including schizophrenia, anxiety and depression.

### RECOVERY COACHING

We help our participants understand, manage and recover from their illness, enabling them to shape their personal journey socially and economically.

Our participant groups consist of people with disabilities, behavioural issues, persistent mental health issues, comorbid secondary diagnoses such as substance abuse, serve personality disorders and other physical health issues.
